SUMMARY

B.Tech CSE undergraduate at Vel Tech R&D, Chennai (CGPA 7.7, 2023–2027) with hands-on AI/ML internship experience at RedandBlue Applied Innovations, Hyderabad. Filed a patent for an AI-powered medical device integrating ML, NLP, and computer vision. Proficient in Python, Scikit-learn, Pandas, SQL, and Azure IoT. 17+ industry certifications including LLM fine-tuning and Cisco CCNA.

EDUCATION

B.Tech – Computer Science & Engineering	Aug 2023 – May 2027
Vel Tech R&D Institute of Science & Technology, Chennai • CGPA: 7.7 / 10.0	
Intermediate – MPC • Narayana Junior College, Kurnool • Grade A • 851/1000	2021 – 2023
SSC • Narayana EM High School, Kurnool • CGPA 10.0 / 10.0 — 600/600 Perfect Score	2021

TECHNICAL SKILLS

Languages: Python, Java, C, SQL

AI / ML: Machine Learning, Scikit-learn, Pandas, NumPy, Regression & Classification, LLMs, NLP, Computer Vision, Recommender Systems, Time Series Analysis

IoT & Cloud: Arduino, Raspberry Pi, Sensor Integration, Azure IoT, AWS, Industry 4.0

Databases: SQL, DBMS Advanced (Scaler), MongoDB

Tools: GitHub, VS Code, Tableau, Node.js, Agile SDLC, Automated Testing & Deployment

Networking: CCNA: Introduction to Networks (Cisco Certified)

INTERNSHIP

AI / ML / IoT Intern	Jun – Jul 2025 (6 weeks)
RedandBlue Applied Innovations Pvt. Ltd. • Hyderabad, Telangana	

- Delivered a validated suite of supervised and unsupervised ML models within a 6-week sprint by engineering end-to-end Python pipelines using Scikit-learn, Pandas, and NumPy on real-world industrial datasets — achieving consistent predictive output across regression and classification tasks.
- Improved IoT prototype reliability by implementing real-time sensor data acquisition pipelines and threshold-based smart automation logic using Arduino and Raspberry Pi with multi-sensor fusion — supporting AI system integration testing across project milestones.
- Accelerated cross-team AI systems delivery by contributing to architecture design reviews and applying Agile SDLC practices across iterative development sprints, completing all deliverables within the 6-week engagement timeline.

PROJECTS

AI-Enabled Smart Medical Kit — Patent Filed	2024 – Present
- Extended healthcare diagnostic access to rural, low-connectivity populations by architecting an offline-first AI system integrating an ML diagnostic engine, NLP-powered symptom checker, and computer vision-based medicine identification into a single edge-deployed platform — resulting in a filed patent application. - Demonstrated technical novelty of an LLM-driven NLP pipeline combined with ML inference and computer vision modules operating without internet dependency — securing a filed patent for “AI-Powered Diagnostic and Medication Assistance Device.”	
IoT-Enabled Automated Irrigation System	Jan – Apr 2023
Reduced estimated irrigation water consumption by ~35% in prototype validation by developing a sensor-fusion smart agriculture system using Arduino and soil moisture sensors with automated threshold-based control logic — demonstrated at college technical exhibition.	
Fingerprint-Based Voting System — NBA Presented	2023

- Eliminated voter impersonation risk in prototype testing by engineering a biometric-only authentication voting system using fingerprint recognition — selected by faculty and presented at the National Board of Accreditation (NBA) institutional evaluation.

CERTIFICATIONS

CCNA: Introduction to Networks — Cisco Networking Academy	Apr 2025
Azure IoT - The Complete Guide — Udemy	Apr 2026
Tableau Advanced: Master Tableau in Data Sci. — Udemy	Apr 2026
Building Recommender Systems with ML & AI — Udemy	Apr 2026
Python for Time Series Data Analysis — Udemy	Apr 2026
DBMS – Fundamentals & Advanced Concepts — Scaler Topics	Oct 2024
Physics of Renewable Energy Systems — NPTEL – IIT (Score: 52, 3 CR)	Jul–Oct 2025
Introduction to Industry 4.0 & IIoT — NPTEL – IIT	Apr 2026
Fine-Tuning Large Language Models — WingSpan	Oct 2025
Software Engineering & Agile Development — WingSpan	Oct 2025
Automated Testing & Deployment — WingSpan	Oct 2025

ACHIEVEMENTS

- Patent Filed — AI-Enabled Smart Medical Kit (Application Pending)
- NBA Presentation — Fingerprint Voting System selected at National Board of Accreditation
- Languages: Telugu (Native), English, Hindi, Urdu
